LUNETATA

SMART PRODUCTS • RELIABLE MACHINES

CONDITION MONITORING

Luneta's CMP greatly modernizes and expands your daily lubricant condition monitoring abilities, giving you a better picture of your machine health.

VISUAL INSPECTION

Experts all agree that daily visual inspection is one of the most effective ways to ensure reliability. Luneta's Sight Glass is your window into machine health.

TOOLS OF THE TRADE

Luneta also provides the tools you need to upgrade your daily lubricant inspection routines with oil sample kits, replacement parts for the CMP and more.

DLX Series

The DLX and DLXB Series can be used in a wide variety of applications and includes a manual air bleed pump head. They are simple to operate, durable, and economical.

eOne Series

The eOne series pumps provide constant dosing, energy savings, and low operating temperatures resulting in reduced mechanical stress.

PKX Series

The PKX Series solenoid dosing pump models include a wall or foot mounting option and are simple to use, highly reliable, and provide compact dimensions.
