

The Column

Oil Level Rings

Includes two tamper-proof level rings to mark idle and running levels

Breather Included

Stainless steel sintered metal 3-micron breather included

Breather

3-micron breather attachment

Clear View

Crystal clear view of oil

Strong Rings

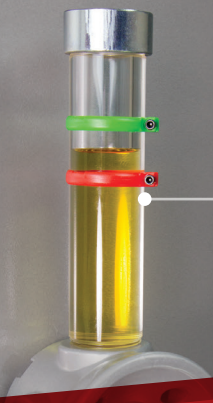

Made of polycarbonate and secured with hex screw

Durable Design

Features a one-piece design with 1-inch NPT threads

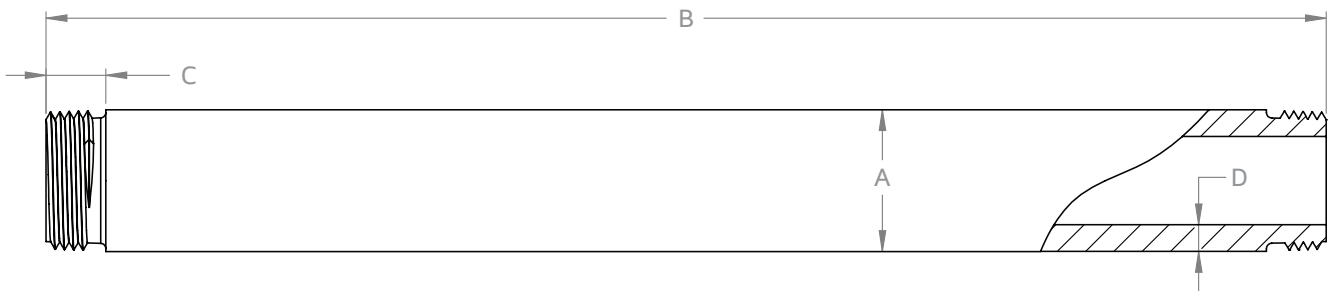

Detect Problems Fast.

The Column is a crystal-clear oil level sight glass that allows you to visually inspect the condition and level of oil in pumps, gearboxes, storage tanks and reservoirs. It features a one-piece design with 1-inch NPT threads at each end and includes a 3-micron breather. Two tamper-proof level rings mark the idle and running oil level. Each ring is made of durable polycarbonate and secured in place with a hex screw.

Designed for:
 Gearboxes
 Hydraulic Reservoirs
 Tote Containers
 Industrial Equipment

The Column

A - Width | B - Length | C - Thread | D - Thickness

Specifications

- **Operating Conditions:** -20deg F (-29C) to 230-degF (110C)
- **Body Material:** Impact resistant acrylic
- **Strong:** Large diameter and thickness for added strength
- **Threads:** 1" NPT males threads at each end
- **Breather:** Stainless steel sintered metal 3-micron breather Included
- **Level Rings:** Red and green level rings to mark running and idle oil levels included. Each level ring is tamper proof and comes with hex key for repositioning. Level rings are made of polycarbonate.
- **Outdoor Compatible:** UV-resistant to protect against long-term sun exposure
